REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

While the Examiner notes for the record that a significant number of reasons set forth by applicants for the patentability of their claimed invention are not agreed with, the arguments set forth particularly on page 9 of applicants' response are found to be quite convincing. In particular, there is nothing in either of the references that would appear to provide a suitable motivation for their combination in the manner previously attempted by the Examiner, and the Examiner's further argument that one of ordinary skill would mix the two adhesives in the previously relied upon prior art combination with the expectation of "improved adhesive performance properties" is simply believed to be unwarranted hindsight.

Any comments considered necessary by applicants must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daniel Zirker whose telephone number is (571) 272-1486. The examiner
